Kings River Land Trust

Philanthropic Partnership Opportunities

Who we are

Kings River Land Trust is where conservation meets commitment. We work hand-in-hand with landowners – those diligent farmers, ranchers and riparian managers whose stewardship fuels our community. We partner with landowners who voluntarily place conservation easements on their properties. These easements conserve their lands forever to yield not only bountiful harvests but also secure a resilient ecosystem for generations to come.

Join us in making a difference

Your financial commitment to our work will:

- Keep critical farmlands, ranches and wildlife habitat safe from urban development in perpetuity.
- Help stop the loss of 50,000 acres of ag land per year in California.*
- Safeguard the 100-mile circle around Fresno where 60% of the nation’s fruits and nuts are grown, and 30% of its vegetables are produced** – protecting food supplies for our community, nation and world.

- Protect the Central Valley economy where ag production was valued at \$8.1 billion in 2022.***
- Care for workers these farms and ranches employ, where 20% of all Fresno-area jobs exist.***
- Help our organization expand our education and outreach efforts beyond the Valley to supporters on a state and national level.
- Fund advocacy efforts to improve policies that are working to protect our Valley’s lands.
